- 13:00 – 13:05 **Welcome and Introduction**
J. Piřha, M. Vrablík
- 13:05 – 13:20 **Rare dyslipidemias and their role in clinical practice**
J. Piřha (Prague, Czechia)
- 13:20 – 13:25 **discussion**
- 13:25 – 13:50 **Update on homozygous FH: genotype and phenotype correlations**
T. Freiburger (Brno, Czechia)
- 13:50 – 13:55 **discussion**
- 13:55 – 14:20 **Rare causes of LDL-C elevation: sitosterolemia, LAL-deficiency and beyond**
K. Parhofer (Munich, Germany)
- 14:20 – 14:25 **discussion**
- 14:25 – 14:50 **Familial chylomicronemia syndrome from diagnosis and clinical presentation to treatment options**
H. Soran (Manchester, UK)
- 14:50 – 14:55 **discussion**
- 14:55 – 15:20 **Familial dysbetalipoproteinemia: do we understand its pathophysiology?**
M. Vrablík (Prague, Czechia)
- 15:20 – 15:25 **discussion**
- 15:25 – 15:50 **Patient with extremely low total/LDL cholesterol (Hypo- and abetalipoproteinemia and beyond)**
V. Blaha (Hradec Kralove, Czechia)
- 15:50 – 15:55 **discussion**
- 15:55 – 16:20 **Lp(a) elevation and its associated CVD risk**
J. Piřha (Prague, Czechia)
- 16:20 – 16:25 **discussion**
- 16:25 – 16:30 **conclusions**

Acknowledgment: EAS has independently organized all matters related to this activity. The Society gratefully acknowledges an unrestricted educational grant from Alexion in support of the programme.
